Great opportunity for a medical center on 40 acres of land directly at the exit of a major highway in central Missouri. A medical center at this location would conveniently serve both the communities of Kirksville (10 minute drive north) and Macon (20 minute drive south) as well as La Plata and many other nearby smaller communities. Kirksville has a 2020 population of 17,000 that swells to over 40,000 when the colleges in the city are in session. Macon has a 2020 population of over 5,000.

This is the only highway exit between Kirksville and Macon, Missouri, that is developed with utilities infrastructure already in place.

Residents in this region often have to travel over 80 miles to Columbia, Missouri, for medical treatment. A medical center at this location would be a welcome addition for those who live, work or attend college in this region.

The land is off US Highway 63, a major 4 lane 70 MPH highway between Ottumwa, Iowa, to the north and Columbia and Jefferson City (State Capital) to the south. US Highway 63 crosses major east/west highways US-36, US-24, I-44 and I-70.

The property has easy on/off access just feet from the highway exit. There is also a top rated hotel, restaurant, bank/ATM, and convenience store at the same exit adjacent to the property. Many other stores, restaurants and services are available 10 minutes north of the highway exit.

The attached flier highlights many of the features of this property.

Please forward this letter and flier to the appropriate person in your organization in charge of land acquisitions.
